

Ermont

Est. 2016

To our valued patients:

We are complying with Governor Baker's directive to temporarily pause sales on vaping products, including devices and cartridges. We will still continue to supply cannabis, cannabis infused products, and a variety of cannabis accessories.

Ermont has been committed to providing our patient base with safe, tested marijuana and marijuana infused products since 2016. We provide only the highest quality medicine for Massachusetts patients. All cannabis products are required by law to be tested for contaminants such as pesticides, heavy metals, microbials, and mycotoxins. These results are always available for patients to review on every product purchased from our dispensary.

We have no safety or health concerns about the products we have supplied. Ermont will always welcome product for safe disposal if patients do have health concerns about legally purchased products in Massachusetts, however we will not be accepting returns and/or exchanges for previously purchased vape products. While we understand that patients need access to medicine, Ermont encourages patients to only purchase from the legal licensed cannabis retailers, where products are tested in accordance with state regulations.

Please be patient as we continue to work with the Cannabis Control Commission, Department of Health and Governor Baker's office. If you have questions, comments or concerns in regards to the ban, the CCC has advised to contact Governor Baker's office directly: (617) 725-4025

Thank you for your continued loyalty and support.

Sincerely,
Ermont
